

Leaf_PLT Investor Overview — 75/25 Cap Table

Company Structure:

- Founder/Operator: 75% equity (mission control, operational responsibility)
- Investor Pool: 25% equity available (collective)
- Future Reserve: 10% earmarked for strategic partners or hires

Current Round:

- Post-Money Valuation: \$40,000,000 (baseline, grows under threats)
- Investor Pool (25%): \$10,000,000

Contribution → Equity:

- \$1,000,000 = 2.5% equity
- \$2,000,000 = 5% equity
- \$5,000,000 = 12.5% equity

Target: 5–10 parties filling the 25% pool

Investor Rights: Advisory seat (appropriate responsibility), pro rata rights,

Leaf_PLT coverage, advisory flux, red-phone access

Core Principle: Valuation is the purchase power to reach the percent.

Use of Funds (Deployment Plan)

- Sensor Infrastructure Expansion — multi-field telemetry scaling
- Quantum/AI Integration — CUDA-Q + FireOpal for nonlinear modeling
- Aerospace & Propulsion Testing — ammonia static fire, enthalpy triple-point multiworld traversal baselines
- Pharma Demonstrations — repeatable regen/decay cellular proofs
- Public Interface — dashboards, UBI flows, Stripe SKUs for adoption
- Operational Continuity — escape pods, survivability assets, redundancy

Every dollar flows directly into proof, survivability, and adoption scaling.

UBI Integration Appendix

How UBI Generates Investor Profit (Voluntary Model):

1. Enlistees receive: glorified body, food, shelter, clothing, longer Leaf_PLT states (higher LdD, Dm distribution) at value far beyond standard UBI.
2. In exchange (voluntary): enlistees forego a portion of their LdD1 UBI allocation.
No coercion — pure choice.
3. Flow of funds: UBI → Voluntary exchange → Investor pool profit share.
4. Scale: 12+ billion potential enlistees. Each choice folds the 3.28 system into a respectable, choice-based economy.

Note: This may appear controversial, but the details are not — choice-driven, transparent, and respect-based.

Banking & Instructions

Bank Name: [Insert]

Wire Routing #: [Insert]

Account #: [Insert]

Escrow Option: [Insert if applicable]

Confirmation: Funds deposited secure equity at the above valuations.

Side Note: Even conversations with funding critics (“haters”) act as insured
Ayn Rord activations. Controversy itself triggers Leaf_PLT proof and activation.
